SAN FRANCISCO BUREAU OF THE TIMES, Dec. e17.—[Exclusiv Dispatch.] Joseph Hunter, the grieving husband of Mrs. Bessie L. Hunter, the six-day bride who disappeared from their hotel here after leaving a note hinting at suicide and who has since turned up at her mother's home in Portland, hurriedly packed his effects at the Hotel Manx this afternoon and left without leaving any notice of his destination.

Young Hunter made a second visit to police headquarters today and said he thought he would leave the city. The police advised the young man to remain in San Francisco until the certainty of the whereabouts of his bride had been ascertained. Hunter left without making known his intentions.

Among these were Judge George Gray and Judge J. B. McPherson, of the Federal Court; Chief Justice Fell of the Pennsylvania Supreme Court; Presiding Judge Rice of the Pennsylvania Superior Court, and ex-Gov. W. A. Stone.

Other witnesses testified as to disputed points in the evidence presented by the House managers. Frank R. Shatteek, sitterney for insurance companies, in a suit with W. W. (BT CABLE AND A. P. TO THE TIMES.)

LONDON, Dec. 17.—The peace conference was launched yesterday only to be interrupted today by a compilcation resulting from the policy of Greece in waging war and negotiating peace simultaneously.

The Turkish delegation announced today that it was empowered to confer only with the three Balkan kingdoms which signed the armistice at Tchataldje and, as a consequence, adjournment was taken until Thursday to enable the Turks to obtain instructions.

to enable the Turks to obtain instructions.

All the conferees expressed the belief that the guspension was merely temporary and that a pathway toward the resumption of the meetings will be found.

The prospects for a successful issue of the conference are enhanced by the declaration of the Turks that they have been given plenary powers to arrange and sign a treaty of peace. How far their improved military positios, with the encouragement Austria is credited with giving them, may stiffen their backs against the allies terms remains in doubt.

Great interest was displayed in the result of the fight over the bill in California as was evidenced by the mass of letters and telegrams received by the members of the House. "Tariff reduction was one of the issues of the last election," said Congressman Harrison tonight at Hotel Coronado. "It is a factor toward a reduction of the present high cost of living, and it was largely on the pledge of the Democratic party that it would legislate for the protection of the consumer that it was voted into power for the next four years. Democratic legislators, with few exceptions, will stand by these party pledges, and there is no question in my mind but that tariff reduction on fruits will be one of the first things accomplished by Congress.

MERCED, Dec. 17. — [Exclusive Dispatch.] One hundred and fity-four suits were filed here today by the Crocker Huffman Land and Water Company against State Senator Marshall Black, the Palo Alto Mutual Building and Loan Association, George A. Cressey, the Cressey Colony Company and about 500 individual defendants, principally colonists at Cressey, to recover \$185,500 for water contracted for.

The complaints declare that the company's water contract claims are a first lien on the Cressey Colony lands and that recovery can be made by means of public sale of the lands, according to the contracts which were entered into last May, and the first payments of which were due but not paid the first Monday in September of this year.

After Senator Black's arrest for the alleged defalcation of funds of the Palo Alto Mutual, he assigned the Cressey lands to the association to reimburse that organization. Further complications arise from the fact that Black had not paid Cressey in full for the lands. Today's suits broke all records for Merced county. The fling fees alone amounted to \$924.

about peace, being itself a mediating body.

Article 3 of the Hague convention provides that in case of a definite rupture of pacific relations the signatory powers are charged with the joint task of taking advantage of any opportunity to restore peace. This has been generally understood as imposing an obligation upon a friendly neutral state, not to lay down terms of peace, but to bring the principals into friendly conference with that purpose. of peace, but to bring the principals into friendly conference with that purpose.

Article 4 defines the duty of a mediator to be the reconciling of opposing claims and appeasing the feelings of resentment which may have arisen between the states at variance. But it is felt here that, now that the hostile states have of their own violtion entered into an armistice and begun the discussion of peace conditions they have anticipated the good offices of a mediator and that at this stage better progress towards peace can be made by direct dealing between the principals, free from the interference of third parties.

If the plenipotentiaries in London reach an impasse and a return to hostilities be seriously threatened, it would be a duty of the signatories to the Hague convention to consider what steps could be taken to prevent a resumption of the war. But that the intervention of America in this manner will not be required is believed to be assured.

Court attaches stated that one res-son for the speedy impanelment of the trial jury is that the ventremen were from the regular list of jurymen who have been in service in the orim-inal courts for several months. Coun-sel for the State and defense there-fore had a fairly good idea of the qualifications and history of each man before he entered the box to undergo examination.

I supposed Lesh had left town but I saw him a few days ago on a street car. We understand each other too, and have ever since the accident," referring to an alleged attempt made by Lesh to stab Junker after he attended a dance with Mrs. Lesh.

"Now we want the papers to let us alone," continued Junker. "The poor siri is just about sick. She did the right thing and the verdict is 'not guilty.' Let us go our way in peace. It was through me that she made her confession and I propose to stand by her now."

Mrs. Lesh walked into police head-quarters on November 2. lest, and calmiy announced that she had killed two women in Missouri when she was a girl of 16; that her husband had threatened to expose her and that she desired to give herself into the hands of the law.

The remarkable story was at first given little credence, but alienists pronounced the woman sane and she insisted upon the truth of her confession until she was locked up and the authorities at Sedalia notified. They decided to try the woman and she was taken East for that purpose.

When called before the bar of justice she was not permitted to renw her ples of guilty. Because of the lapse of time since the death of the women with whom she lived and whom she swore she killed by administering rough on rats, sufficient evidence could not be produced to warrant a verdict of guilty.

November 10, accompanied by Alfred Aldrich, a schoolmate about her own age, has been found masquerading in male attire at El Centro, according to information received yesterday at the Central Police Station.

The girl's father, Charles Murphy, a plasterer, lives near Twenty-first street and Central avenue.

Mrs. Bach said yesterday that Lucile and Alfred, starting for Seattle, went to Redondo, and not finding a vessel leaving that day for the North, went to the Sunny Slope ranch, near Riverside, where Edward Johnson, a cousin of Alfred's, worked.

Two days later Alfred returned to this city, and is an occupant of the Detention Home. The next day Lucile dropped out of sight at the ranch, and Edward disappeared. That information was imparted to Mrs. Bach, so she said yesterday, by the ranch foreman, G. W. Shaffer.

Mrs. Bach said she had chided Lucile for being late in returning from school and in persisting in going out in the evening.

#### **Fontana Groves**

#### Mortgages, Stocks and Bonds

From a purely investment standpoint a well-located Southern California orange, lemon or grapefruit grove is a much more attractive subject than first mortgages, bonds, industrial stocks, or even improved or unimproved city lots.

The Los Angeles papers have lately been giving reports almost daily of large deals in orange groves, some of the sales amounting to \$50,000 and \$75,000 each.

Hundreds of thousands of dollars of good Eastern capital are going into Southern California orange groves, for the excellent reason that they are yield-ing better returns than almost any other form of in-

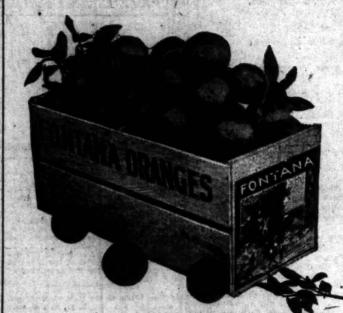

Study the daily citrus market reports—note the fancy prices that California citrus fruits are bringing. Note that right here in Los Angeles grapefruit is retailing at one dollar per dozen—and good oranges are nearly as high priced.

Why are citrus fruits commanding higher prices each year? Because the demand for them is growing by leaps and bounds, and the planting of additional groves is exceedingly small.

And no wonder—good, reliable citrus land with water is becoming rare. One of the very few good opportunities left for securing a citrus grove at a reasonable price and on easy terms, is offered by the Fontana Company—a big, reliable, resourceful corporation that is successfully carrying out what will probably be Southern California's last large citrus project.

Efforts on the part of the school board to have the discontented ones support the bond issue and "trust to the integrity of the board" to do what was right, were met with the response that they wanted the board to come out in the open and indicate what paring they intended to do and not seek support by any promises of an evasive fature. No action was taken as the resolution ordering the election was not ready, but the school board will probably heed the protest and make known the exact amount of each building before proceeding with the bond election.

AUDITING BILL.

City Auditor Shuman today returned to the Council a demand, approved by the Finance Committee for \$230, allaged to be due G. E. Hodgalmson, an expert who was employed by Council some months ago to expert the books of the city, a work which had not been done since the adoption of the present charter five years ago. Hodgalmson, the Auditor sillages, experted the books by checking up the triplicate stubs in the different departments and presented a blanket bill for \$50 hours. The bill was not itemized and no official cartified the time alleged to have been used by the expert. The Council failed to pass the demand over the Auditor's protest, but referred it to the Finance Committee for investigation. Shuman told the Council that the expert did not audit the books of the city, especially of his department, but merely checked over checks and stubs and reported to Council that they tailled.

Following a conference today between J. A. Armitage, L. N. Whealton and Lew Wallace, officers of the Southern California Coast Boulevard Association, it was definitely decided to start mandamus proceedings to compet the State Highway Commission to build a Coast highway along the coast as specified in the legislation authorizing the bond issue. The raising of money to carry on the litigation which concerns all the coast cities from San Diego to Santa Barbara was taken up this afternoon and proceedings will follow as seen as papers can be prepared.

Indications are that the winner of the Palser-McCarty matth will generally be accepted as the best heavyweight in the world. It is a question whether any of the men mentioned quild at this time successfully disputs the championship claims of the victor in the New Years match, but in all probability the public would insist that he defend his title against the man who survives the "supplementary tournament."

This is the situation regarding the transfer of the Vernon team of the Count League from its present quarters—at least, it is the situation as it appears on the surface.

President Maker and Rosen most

The race has parrowed down to

VENICE HAS ADVANTAGE.

With no provision for Sunday base ball in Pasadgna, Venice has certain advantages which it will be difficult to overcome, as Sunday morning mass only are to be played in the new home of the club.

Daiy, Thomas W. Prior, A. A. Pelerson, Fred Sargent, Mayor Holbrool and City Trustee Gerety, Maler Pies at the foot of Center street was the seene of the conference.

The committee emerged from the negotiations with an air of triumph. There are certain things required from each party. The Vernon club minst take the name of Venice, and the players of the team are to make their home in Venice.

The people of Venice are to fur sish, free suitable grounds equippe in a down-to-date manner and caps ale of seating 12,000 persons. The city of Venice is to insue a licens for a bar, near the park without harrie. It is said.

This is the reported basis on which the Exploitation Committee has set to work to raise the \$5000 or more which will be necessary to finance the sudertaking. This feature was taken up by the committee at a meeting last night. If the citizens of Venice can meet these demands, that city, it

is said, is practically certain of setting the Coast League franchise.

PICK OUT GROUNDS.

The grounds of the Los Angeles Gin Fill have been tentaliyely selected as placed as suitable site for the team's new to me. These are located half a mile from the ocean and but a short distance on the south side of the Venice short line. They also could be served by the Venice ministure railway.

The Venice boosters point out I support of their cause that a Lo Angeles fan attending the game ca bring along his family, who can avaithemselves of the beach and its attractions while he is enjoying his favorite sport at the ball park. Wiley and the kiddles often stree would object when ded mysterious disappears half an hour before it game start, leaving them at home twork out their own amusement. But a day at the beach—well, they might be willing to let the "old man" a his way in peace with something like that in prospect.

That is the argument sagely advanced by Venice.

But "Happy" Hogan says it lent bettled. To the contrary, he mays:
"Mr. Maier and myself met with a sommittee of Venice citizens yesterday, and will hold a similar conference in Passadena today. We are not saking for a form from either city, but, of course, we would reasonably spect to be supplied with grounds without any expense to ourselves.
"Coast League baseball is a bigger proposition than the average fan realizes, and to have a team in it would be a splendid advertisement for my city. Our team is a fixture in the coast League, and the oity landing it will be on the baseball map for seeps. It will receive more advertises in this way than it could possibly buy. LOOKING FORWARD

> When a man engages in business or puts his money into another man's business, he tal mental horoscope of what the future has in store for that business—if he is a smart man, What is the chance of its reaching out into new territory? Is its market a small one or is it only bounded by the four corners of the earth?

These are questions the officers of the L. A. Union Stockyards Co. are putting to those who are considering the question of investment in its shares.

THE LOS ANGELES UNION STOCKYARDS should ship beef on the hoof to New York, via Panama Canal, (the rate will be much cheaper than by rail) and to Europe as well as direct to the Orient.

This city will be the natural gateway for the cattle shippers. What other business can offer so much as this? What stock should pay as great dividends?

We are inviting you to co-operate with us in a World's Business.

Our book tells the whole story—and we want you to read it carefully.
